Contact Lens Practitioners

Your Invitation to Participate in a professionally produced case study

This opportunity is to obtain a professionally produced case study by Contamac and your contact lens laboratory for use as exhibition and meeting handouts, mailers and for web site posting.

This no cost offer includes exposure on the Contamac web site in the professional services section for both the laboratory and a practitioner's specialty lenses or lens designs with private branding identification potential.

In return for the provision of a case study citing lenses made in Contamac Optimum, Definitive or GM Advance materials, including digital photographs, corneal topography maps, a description of fitting issues and resolution/outcome data using Contamac materials, the case study will be formatted, professionally designed with full layout, and then reproduced and reprinted for your use. For further information visit www.contamac.com/professionalservices
